TABLE OF CONTENTS

01 PROBLEM **04** SOLUTION

02 MAIN FEATURES 05 FUTURE WORK

03 CHALLENGES

PROBLEM

No available tool

Currently there is no available tool to help perform this task

Overloaded Teachers

By keeping track of worked hours in the DSD platform we can compensate teachers who were overloaded in previous years

Hard to obtain data

It can take several time just to get the essential information to do this labour

MAIN FEATURES

Balanced Distribution

Allow the hours assigned to each teacher to be linearly distributed

Wish List

Tool to view each teacher's wish list, in which they indicate their teaching preferences.

Graphic Interface

Development of a graphical interface for building the DSD

Teachers History

Ability to see past data in order to have a better deciding method

Teachers Status

Display of the teacher status in order to see if you can assign him/her or not

CHALLENGES

- Understand what requirements and functionalities are of our responsibility in a big and complex system with many dependencies
- How to represent information in the graphical user interface

VALIDATING AND EXPORTING

SINGLE PAGE APPLICATION

FUTURE WORK

- Display Professor's additional roles and responsibilities
- Allow the DSDer to add/remove classes
- Allow the DSDer to add temporary placeholder Professors
- Share DSD state with others
- Use historical DSD data to auto suggest a possible starting point DSD
- Distinguish between first and second semester DSD
